

I support the petition to require VRS interoperability because I am frustrated with the different ways to call people on videophone. I was told that Sorenson is blocking the services from others into Dlink... not fair for the Deaf community because the hearing can choose any phone company while we are stuck with one service... not RIGHT!!!

It is very important to make everyone equally accessible by setting up one system just like the telephone. To be fair and treated the same as hearing have. one is not enough and two or more is better to have all kind of options to have. We need to be treated fair like the hearing...

Thank you for this opportunity to make my comment.
